

WEEK 1

Aim

To design and develop a simple personal resume web page using HTML, including personal details, educational qualifications, technical skills, projects, certifications, strengths, languages known, and a declaration.

Description

The program creates a resume-style web page using basic HTML elements. The page contains a profile section, contact information, career objective, educational qualification table, technical skills, work experience, projects, certifications, strengths, languages known, and declaration. Tables, headings, lists, hyperlinks, an image, horizontal lines, and simple inline CSS are used to organize and format the content.

The submitted HTML source identifies the student as AKKIVARAPU VANI and includes HTML, CSS, JavaScript, and Node.js as technical skills, along with the listed projects and certifications.

Program Code

```
001 <!DOCTYPE html>
002 <html>
003 <head>
004     <title>RESUME</title>
005 </head>
006 <body>
007
008     <div style="text-align: center;">
009         
010         <br><br>
011         <h1>AKKIVARAPU VANI</h1>
012         <p style="font-size: 18px; line-height: 1.5;">B.Tech Student | Full Stack Web Developer | Software Developer</p>
013     </div>

Output

AKKIVARAPU VANI

Full Stack Student | Full Stack Web Developer | Software Developer

Contact Information

Information	Details
Email	akkivaranip@gmail.com
Phone	+91-9876543210
Portfolio	www.akkivaranip.com
Location	Andhra Pradesh, India

Career Objective

I am a Full Stack Web Developer with a strong foundation in both front-end and back-end technologies. I am passionate about creating user-centric web applications and solving complex problems. I am currently seeking a challenging role where I can utilize my skills and contribute to the growth of the organization.

Educational Qualification

Degree	University/School	Year	CGPA/Percentage
B.Tech	ANITS	2020	8.5
Intermediate	St. Charles	2017	88%
10th	GOVERNMENT	2010	85%

Technical Skills

- HTML
- CSS
- JavaScript
- React.js

Work Experience

J. Reddy

Project	Technology	Description
Project Management System	Python	It is the software product used to manage the project and its resources.
Inventory Management System	Full Stack Python	It is the software product to manage the inventory of the company.

Certifications

- ANITS Cloud Fundamentals
- Full Stack Web Development
- Python Programming

Strengths

- Problem-solving
- Teamwork
- Time management
- Communication skills

Languages Known

- English
- Telugu

Declaration

I hereby declare that the above information is true and correct to the best of my knowledge and belief.

Signature

AKKIVARAPU VANI

Result

Thus, a personal resume web page was successfully created using HTML. The page organizes the student's personal, academic, technical, and project information in a structured format and can be viewed in a web browser.
